**Seminar on Open CAM Solution
for Sheet Metal Cutting and Nesting
for Marine and Shipbuilding**

20 August 2015 - Paradise Hotel, Busan

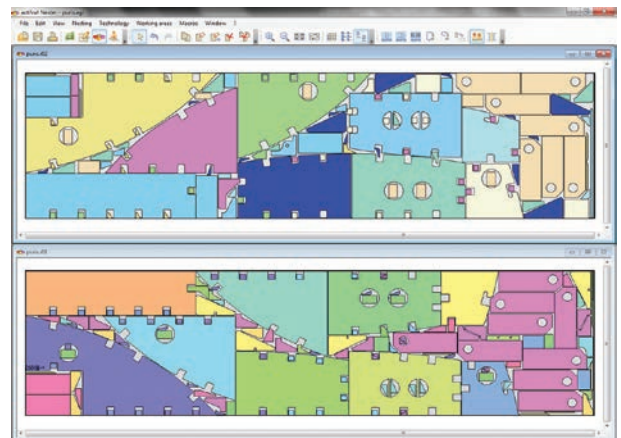

Seminar on open CAM solution for sheet metal cutting and nesting for Marine and Shipbuilding - 20 August 2015, 4 pm to 6 pm.

Paradise Hotel - 296, Haeundaehaebyeon-ro, Busan 612-010, South Korea

Sheet metal cutting is a key link in the shipyards manufacturing process. It can become either a bottleneck hampering the whole production, or a huge productivity and profit booster. This seminar is for personnel from the Design and Production Department.

Arnaud Fray and Larbi Baalla from Alma, based on their experience with shipbuilders all over the world, will discuss in this seminar the various issues faced in shipyards with CAM software for nesting and sheet metal cutting.

After the presentation, a discussion on the various aspect of CAD/CAM and integration in Shipbuilding and Marine industry will take place. We welcome participants to email us their questions and we expect to have a lively discussion with all participants!

To find out more, call Hyoung B. Yun - Tel.: 031-476-7766 - Mobile: 011-342-5133
